Subject: Re: Regional PFAS Event - Draft Agenda

All - this version was approved by headquarters yesterday we can start inviting people next week after the announcement goes out. Please know that an EPA moderator must be on every panel. Also I combined the proposed to community sessions into one longer one. Everything looks good.

All,

Below is a draft agenda, including some explanation/questions for our consideration. I’ve attached a clean version of the agenda if needed.

The Community Panels combine our original Monday evening/Tuesday vision for hearing community stories, and reflect initial recommendations from the community coalition. I would like folks to consider

whether we want to move the Community Panel portion to the morning on Tuesday, immediately after the HQ debrief of the National Summit. While this makes the flow of the day a bit choppy, it does highlight community engagement and prevents the community from waiting all day to participate. Thoughts?
